

Bar Coding Labels and Ribbons

Intermec Labels and Ribbons for the 3400 Thermal Transfer Printer

Intermec DuraTran® labels and TermaMax® TMx2200 Premium ribbons are specially designed for use with your Intermec 3400 Thermal Transfer Printer. Intermec labels and ribbons are high quality, stocked products that provide cost-effective printing.

For your convenience, PROFITsystems offers two sizes of labels for use with your printer: 3.15" x 5" rack labels and 2" x 3" accessory labels. Stocked labels and ribbons come in case lots of 4 rolls each and are shipped directly from the manufacturer to your door.

Custom Labels*

Not all labeling requirements can be met with a take-from-stock product. Many customers require custom configurations, like piggy-back labels, or multi-color printing. Intermec has a wide variety of custom labels designed to meet your specific needs.

To place an order or to get more information on custom labels call our Sales Department at:

800.888.5565

(*Production times vary from order to order. Please allow a minimum of 20 to 25 working days for production of your order.)
