YES, I would like to be a member of the Industry's Largest Buying Group for Freight. I want carriers to listen to what we have to say:

- 1) **We're ready for change.** We've been overcharged for our freight services for way too long.
- 2) **We're big.** Together we're bigger than ANY furniture retailer in the world - and we want freight rates that respect our size and volume!
- 3) **We're strong and united.** We are willing to move our freight business to carriers that deliver superior service and lower prices. So, our combined \$100+ million business can either come your way, or go away, depending on what you provide us.
- 4) **We're organized.** Our PROFIT *systems* software allows us to automatically choose a Carrier of Choice without any work on our part. This high level of organization allows our massive buying power to work together seamlessly on every purchase order.
- 5) **We're up and running.** Our member base is growing every month, the software is up and running in the field and we are actively negotiating with carriers like you to bring our business to a higher level.

As a potential carrier, I encourage you to listen to us. We are the Industry's Largest Buying Group for Freight and we want PROFIT *freight* to negotiate freight rates on our behalf.
